# Crewed Yacht Charter

= a "term" charter or hiring/ renting a yacht and crew for a specified consecutive number of days, weeks or months & traveling to island or coastal destinations

# HOW LONG

Charter Rates are presented based on **7-night** trips.

Charters can be offered for several consecutive months often not less than 5 nights.

However, many yachts will consider inquiries of ANY length of charter and will evaluate an appropriate rate. \*Charters less than 6 nights will often reflect a premium, termed "short charter"

# HOW MANY GUESTS

We can accommodate any size of group.

A single private yacht typically accommodates 2-12 guests in up to 6 cabins.

To accommodate large groups or families, if there is not an appropriate larger option in the area, we typically charter more than one yacht to cruise together (in "tandem").

Larger yacht exceptions exist able to exceed 12 under different regulations.
